

Your New TFW Links ?

5-minute setup · one time · that's all we need from you

Hi lovely! We've set up personal links for each of you. They look the same as the old ones to your followers — but behind the scenes they credit **YOUR** audience for every signup and sale, so we can see what's working and celebrate your wins properly.

All you need to do: open your linktree, replace your current buttons with YOUR three links below (copy-paste exactly, in this order). Done — we handle everything else from here.

Button names to use: “Join Our FREE Facebook Group ?” · “Get The TFW Indicator” · “TFW Approved Tools & Resources”

One small tip: if you ever paste a link directly into a caption or story (not linktree), change “linktree” in the link to the platform name — tiktok, instagram, or youtube. Everything else stays the same. Skip this if unsure — the links work perfectly as they are.

Questions? Message Christian or Sam — and thank you! Every click through your links now counts for you 📄
